DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Herrin et al. (5,706,524).

Herrin discloses a garment 20, as shown in figure 1, comprising an absorbent part 21 and a waist belt 30. The waist belt 30 comprises two separate belts, as shown in figure 2, which extend in the longitudinal direction. One end of each of the two separate belts is fastened to the absorbent part 21, as shown in figure 1, and the opposite ends of the two separate belts are fully capable of being fastened together around the wearer of the garment 20. The waist belt 30 comprises two sheets 31 and 32, as shown in figure 5, with elastic members 33 attached to the sheets, running parallel to each other in the longitudinal direction of the waist belt 30. The sheets 31

Art Unit: 3761

and 32 are inherently of different stiffness than the elastic members 33, giving the waist belt 30 a stiffness that varies extending in the longitudinal direction of the waist belt 30.

With respect to claim 2, the two parts of varying stiffness, the sheets 31 and 32, and the elastic members 33, are mutually adjacent, as shown in figure 4.

With respect to claim 3, the longitudinally extending elastic members 33 are located in the central part of the waist belt 30, with the sheets 31 and 32 at the longitudinally extending edges, as shown in figure 4.

Allowable Subject Matter

Claims 4-9 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3761

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
